AWARD TERM PLAN

1.0 INTRODUCTION

a. This Award Term Plan is the basis for the Theater Warfare Systems (T) Department at the Naval Surface Warfare Center, Dahlgren Division (NSWCDD) evaluation of the contractor's performance and for presenting an assessment of that performance to the Term Determining Official (TDO). Evaluation for term periods will begin 12 months after the effective date of the contract. An informal interim evaluation will be conducted six months after award. This evaluation is for the purpose of providing the contractor with feedback on his performance. No term will be available as a result of this interim evaluation. An adjustment to the award term will not result in a contract ordering period of less than four years or greater than seven years from the award of the contract. This plan describes the specific criteria and procedures to be used to assess the contractor's performance and to determine the amount of award term earned. Actual award term determinations and the methodology for determining the award term are unilateral decisions made solely at the discretion of the Government.

b. Any contract term extensions earned will be reflected in unilateral contract modifications based upon terms earned as determined by the TDO. The award term earned will be determined by the TDO based upon review of the contractor's performance against the criteria set forth in this plan. The TDO may unilaterally change this plan prior to the beginning of an evaluation period. Changes to this plan that are applicable to a current evaluation period will be incorporated by mutual consent of both parties.

c. This Award Term Plan contractually entitles the contractor to award term extensions based on TDO decision and is only subject to cancellation based on the following specific contingencies: elimination of the requirement; lack of funding; termination for convenience, and a total of two TDO determinations of marginal or unsatisfactory ratings.

2.0 ORGANIZATION

The award term organization consists of the Term Determining Official (TDO); an Award Term Review Board (ATRB) which consists of a chairperson, the Contracting Officer, a recorder, other functional area participants; and the Performance Monitors. The TDO, ATRB members, and Performance Monitors are listed in Annex 1.

3.0 RESPONSIBILITIES

a. **Term Determining Official**. The TDO approves the award term plan and any changes. The TDO reviews the recommendation(s) of the ATRB, considers all pertinent

data, and determines the earned award term periods for each evaluation period. The TDO appoints the ATRB Chairperson.

b. **Award Term Review Board.** ATRB members review performance monitors' evaluation of the contractor's performance, consider all information from pertinent sources (including the contractor's self-assessment report), and arrive at an earned award term period recommendation to be presented to the TDO. The ATRB may also recommend changes to this plan.

c. **ATR Recorder.** The ATRB recorder is responsible for coordinating the administrative actions required by the performance monitors, the ATRB and the TDO. The recorder will prepare the official minutes of each Award Term session.

d. **Contracting Officer.** The CO appoints the TDO and Award Term Review Board members. An Alternate shall be appointed for each ATRB member. The CO modifies the contract ordering period, if necessary, to reflect the TDO decision.

e. **Performance Monitors.** Performance monitors maintain written records of the contractor's performance in their assigned evaluation area(s) so that a fair and accurate evaluation is obtained. Monitors prepare end-of-period evaluation reports as directed by the ATRB.

4.0 AWARD TERM PROCESSES

a. Available Award Terms. The earned award terms will be based on the contractor's performance during each evaluation period. The available terms for each evaluation period are shown in Annex 2. The contractor can earn from a six month to one year increase or decrease for each award term, or the award term could remain unchanged. Two TDO determinations of marginal or unsatisfactory ratings (or combination thereof) during the four year ordering period shall result in the loss of any previously awarded term extensions and the Award Term Plan and Award Term conditions of the contract shall no longer apply. The ordering period shall be reduced to 18 months or the current ordering period of the contract, whichever is less. Two TDO determinations of marginal or unsatisfactory (or combination thereof) during an award term extension period of the contract shall result in the loss of any previously awarded term extensions and the ordering period shall be reduced to 18 months or the current term extension, whichever is less.

b. Evaluation Criteria. If the CO does not provide specific notice in writing to the contractor of changes to the evaluation criteria prior to the start of an evaluation period, the same criteria from the preceding period will be used in the subsequent evaluation period. Any changes to evaluation criteria will be made by revising the Award Term Plan and notifying the contractor.

c. Contractor's Self-Assessment. The contractor's self-assessment report is submitted to the ATRB and CO within 15 days after the end of the evaluation period.

This written assessment of the contractor's performance throughout the evaluation period shall address each of the evaluation factors and may also contain any information that may be reasonably expected to assist the ATRB in evaluating the contractor's performance. The contractor shall provide detailed information on the utilization of small business concerns for the evaluation period. Submission of SF Form 294 – Subcontracting Report for Individual Contract shall not be considered as sufficient information for evaluation purposes.

d. End-of-Period Evaluations. The ATRB Recorder notifies each ATRB member and performance monitor prior to the end of each evaluation period. The contractor shall submit a written Self-Assessment Report to the ATRB Recorder (with a copy to the Contracting Officer) within 15 calendar days from the end of the evaluation period. Performance monitors submit their evaluation reports to the ATRB Recorder within 30 calendar days from the end of the evaluation period. The ATRB Chairperson prepares its evaluation report and recommendation of earned award term periods. The ATRB Chairperson briefs the evaluation report and recommendation to the TDO at the Award Term Session. The TDO determines the earned award term periods for the evaluation period at the Award Term Session. The TDO informs the contractor of the earned award term periods at the Award Term session. If an extension or reduction is applicable, the CO issues a modification within 10 calendar days after receipt of the Award Term minutes signed by the TDO.

e. Award-Term Sessions. The Award Term Review Board will meet within 45 days after the end of the evaluation period. The ATRB shall consider the performance evaluation reports and oral presentations, and then prepare a recommendation for the TDO. The following is representative of the agenda that should be followed during ATRB sessions:

OPEN SESSION

Attendees – ATRB, TDO, Award Term Performance Monitors, ATRB Recorder, and all invited Government and Contractor guests.

Agenda – Contractor's oral presentation

EXECUTIVE SESSION

Attendees – ATRB, TDO, Award Term Performance Monitors, ATRB Recorder, Government Contract Specialist, and appropriate Contractor representatives.

Agenda – Oral presentations by Award Term Performance Monitors followed by an examination and discussion of each presentation by ATRB and TDO.

CLOSED SESSION

Attendees – Only ATRB members, TDO, ATRB Recorder, and Government Contract Specialist

- Agenda
- (1) Deliberations by the ATRB
 - (2) Summation of Results/Discussions
 - (3) Recommendations of individual ATRB member
 - (4) Averaging of Recommendations
 - (5) Presentation to TDO of Recommendation
 - (6) Discussions with TDO
 - (7) Determination of Award Term Extension

EXECUTIVE SESSION

Attendees – ATRB, TDO, Award Term Performance Monitors, ATRB Recorder, Government Contract Specialist, and appropriate Contractor representatives.

Agenda – The TDO informs the Contractor representatives of the award term decision and a brief rationale for the decision.

5.0 AWARD TERM PLAN CHANGE PROCEDURE

The TDO may unilaterally change this plan prior to the beginning of an evaluation period. In addition, the contractor may recommend changes to the plan no later than 60 days prior to the beginning of the new evaluation period. The contractor will be notified of changes to the plan by the CO, in writing, before the start of the affected evaluation period. Changes to this plan that are applicable to a current evaluation period will be incorporated by the mutual consent of both parties.

AWARD TERM ALLOCATION BY EVALUATION PERIODS

The award term earned by the contractor will be determined at the completion of evaluation periods shown below. The award term points shown corresponding to each period is the range of the available award term amount that can be earned during that particular period.

Evaluation Period	From	To	Available Award Term Points
1	1 October 2003	31 March 2004	0 – 100
2	1 April 2004	30 September 2004	0 – 100
3	1 October 2004	31 March 2005	0 – 100
4	1 April 2005	30 September 2005	0 – 100
5	1 October 2005	31 March 2006	0 – 100
6	1 April 2006	30 September 2006	0 – 100
7	1 October 2006	31 March 2007	0 – 100
8	1 April 2007	30 September 2007	0 – 100
9	1 October 2007	31 March 2008	0 – 100
10	1 April 2008	30 September 2008	0 – 100
11	1 October 2008	31 March 2009	0 – 100

NOTE: The award term arrangement will continue using the bi-yearly evaluation periods to award a maximum number of three years. If the ordering period does not extend more than 18 months from the TDO decision, the operation of the award term feature will cease and the ordering period will not extend beyond the term set at that time.

A score of 91 – 100 (Outstanding) in an evaluation period = 1 year term extension

A score of 80 – 90 (Good) in an evaluation period = 6 month extension

A score of 70 – 79 (Satisfactory) in an evaluation period results in neither an extension or reduction

A score of 60 – 69 (Marginal) in an evaluation period = 6 month reduction

A score of 59 or below (Unsatisfactory) in an evaluation period = 1 year reduction

A total of two marginal or unsatisfactory ratings (or combination thereof) at any time during the performance period of this contract will result in the loss of any previously awarded term extensions and the ordering period shall be reduced to 18 months or the current ordering period of the contract, whichever is less.

OVERALL GRADE DEFINITIONS AND CORRESPONDING AWARD TERM POINTS FOR TECHNICAL, PROJECT MANAGEMENT AND COST PERFORMANCE

Unsatisfactory Performance: Contractor's performance of most contract tasks is inadequate and inconsistent. Quality, responsiveness, and timeliness in many areas require attention and action. Corrective actions have not been taken or are ineffective.
Available Award Term Points: 0 – 59

Marginal Performance: Contractor's performance of some contract tasks is inadequate and inconsistent. Quality, responsiveness, and timeliness in some areas require attention and action. Corrective actions have not been taken or have been taken with inconsistent improvement.
Available Award Term Points: 60 – 69

Satisfactory Performance: Contractor's performance of most contract tasks is adequate with some tangible and intangible benefits to the Government due to contractor's effort or initiative. Although there are areas of better performance, these are more or less offset by lower-rated performance in other areas.
Available Award Term Points: 70 – 79

Good Performance: Contractor's performance of most contract tasks is consistently noteworthy and provides some significant, tangible, or intangible benefits to the Government (e.g. improved quality, responsiveness, increased timeliness, or generally enhanced effectiveness of operations). There are few recurring problems and few areas require improvement.
Available Award Term Points: 80 – 90

Outstanding Performance: Contractor's performance of all contract tasks is consistently noteworthy and provides numerous significant, tangible, or intangible benefits to the Government (e.g. improved quality, responsiveness, increased timeliness, or generally enhanced effectiveness of operations). There are no recurring problems and no areas require improvement.
Available Award Term Points: 91 – 100

OVERALL GRADE DEFINITIONS AND CORRESPONDING AWARD TERM POINTS FOR SUBCONTRACTING PARTICIPATION

Unsatisfactory: The contractor subcontracts less than 5% of the total contract cost to small business concerns.
Available Award Term Points: 0 – 59

Marginal: The contractor subcontracts less than 8% (but more than 5%) of the total contract cost to small business concerns.
Available Award Term Points: 60 – 69

Satisfactory: The contractor subcontracts between 8 – 10% of the total contract cost to small business concerns.

Available Award Term Points: 70 – 79

Good: The contractor subcontracts between 11 – 15% of the total contract cost to small business concerns.

Available Award Term Points: 80 – 90

Outstanding: The contractor subcontracts more than 15% of the total contract cost to small business concerns.

Available Award Term Points: 91 – 100

ANNEX 3

EVALUATION CRITERIA

Technical Performance	25% of Total
Project Management	25% of Total
Cost Performance	25% of Total
Subcontracting Participation	25% of Total

TECHNICAL PERFORMANCE

Technical Performance ratings of Outstanding, Good, Satisfactory, Marginal and Unsatisfactory are based on the contractor's:

1. ability to meet technical requirements as identified in task order statement of works,
2. quality of the services provided by key and non-key personnel supporting individual task orders,
3. employees communications with Government technical personnel,
4. identification of innovative and improved methods for accomplishing statement of work taskings,
5. quality and timeliness of contract deliverables,
6. early identification of problem areas and accomplishments in overcoming them to maintain schedules and quality of service/product,
7. adherence to Government standards and instructions, and
8. responsiveness to program changes.

PROJECT MANAGEMENT

Project Management ratings of Outstanding, Good, Satisfactory, Marginal and Unsatisfactory are based on the contractor's:

1. program management,
2. site management,
3. internal controls to ensure proper supervision of work force and economical completion of assigned taskings,
4. staffing of key and non-key personnel
5. coordination and cooperation with cognizant Navy Officials to resolve technical and contract problems that may occur in the performance of taskings
6. management and reporting of GFP/GFI,
7. accuracy and timeliness of monthly progress reports,
8. subcontractor management,

9. promptness in responding to Government requests for resource estimates needed for planning and budget purposes,
10. accuracy of invoices relating to technical hours worked/hours billed by labor category and accuracy of other direct costs including travel.

COST PERFORMANCE

Cost Performance ratings of Outstanding, Good, Satisfactory, Marginal and Unsatisfactory are based on the contractor's:

1. cost planning, and timely and accurate reporting of costs,
2. effectiveness in early identification of cost problems and dealing with identified problems,
3. ability to maintain budgets by making appropriate cost effective decisions,
4. contractor's efforts that result in cost savings,
5. promptness in responding to Government requests for costs proposals (either by task orders or modifications to task orders that request changes to the existing scope of work)
6. diligent efforts to be at or under the negotiated estimated cost for each task order,
7. funding projections that are accurate and submitted timely,
8. cost variances (including subcontractor) are identified early and plans for recovery are reported and a recovery plan implemented, and
9. proposal data, including subcontractor data is adequate for technical review and cost analysis

SUBCONTRACTING PARTICIPATION

It is the intent of the government to incentivize the contractor to make every effort to afford small business concerns the maximum practicable opportunity to participate in performance on this contract. Achieving between 8 – 10% small business subcontracting participation shall be rated as satisfactory. Achieving less or more than between 8 – 10% shall be rated as defined in the Overall Grade Definitions and Corresponding Award Term Points. The available award term points within each grade definition shall be determined by the percentage achieved within the grade definition range; the effort made by the contractor to subcontract to small business during the reporting period, and any mitigating circumstances.

Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

THE CONTRACTOR SHALL BE REQUIRED TO REVIEW CLASSIFIED DOCUMENTS AND PRODUCE CLASSIFIED COMPUTER PROGRAMS AND SUPPORTING DOCUMENTATION. GENERAL SOFTWARE MAY BE CLASSIFIED. PROVIDE TECHNICAL R&D SUPPORT TO THE THEATER WARFARE SYSTEMS DEPARTMENT.

CLASSIFICATION GUIDANCE FOR SPECIFIC ITEMS OF INFORMATION IS GOVERNED BY OPNAVINST 5513.8B (ENCLOSURE (38)) REVISED 05 JUN 91. OPNAVINST 5513.1E WILL BE USED FOR INTERPRETATION OF THE OPNAV 5513 SERIES. DETAILED INFORMATION AS TO CLASSIFICATION LEVEL OF SPECIFIC ITEMS OF INFORMATION SHALL BE OBTAINED FROM THE PROGRAM MANAGER ON AN AS-NEEDED BASIS.

THE REQUIRED SECURITY LEVEL FOR THE MAJORITY OF THE ASSIGNED PERSONNEL WILL BE SECRET.

SEE ATTACHED SHEETS.

CONTINUATION SHEET - DD FORM 254

All reports containing scientific/technical information (both classified and unclassified) will be marked on both the cover and title page with the following distribution statement: (For Intelligence Data - See Statement Below)*:

"Distribution authorized to U.S. GOVERNMENT AGENCIES ONLY; TEST AND EVALUATION"; (Date statement applied). Other requests for this document must be referred to Commander, Dahlgren Division, Naval Surface Warfare Center, Code T06, Dahlgren, VA 22448-5100.

*Intelligence data reports - distribution statement as follows: "FURTHER DISSEMINATION ONLY AS DIRECTED BY COMMANDER, DAHLGREN DIVISION, NAVAL SURFACE WARFARE CENTER (CODE T53), DAHLGREN, VA 22448-5100 (DATE APPLIED) OR THE OFFICE OF NAVAL INTELLIGENCE (ONI-52)",

All technical data provided to the contractor by the government will be protected from public disclosure in accordance with the markings contained thereon. All other information relating to the items to be delivered or services to be performed under this contract may not be disclosed by any means without prior approval of the authorized representative of the contracting officer. Dissemination or public disclosure includes, but is not limited to, permitting access to such information by foreign nationals or by any other person or entity; publication of technical or scientific papers; advertising; or any other proposed public release. The contractor shall provide adequate physical protection to such information as to preclude access by any person or entity not authorized such access by the government.

Due to the sensitivity of this program, no classified material received or generated under this contract will be transferred to any other contractor or agency without the approval of the Contracting Officer or Contracting Officer's Representative (COR). For intelligence data reports see the intelligence supplement.

Information on this contract is not releasable to personnel possessing reciprocal clearances without the written approval of NSWCDD. For intelligence data reports see the intelligence supplement.

CONTINUATION SHEET - DD FORM 254

All classified visit requests for activities other than Intelligence Community (IC) activities (i.e. DOD or national intelligence agencies) shall have "NEED-TO-KNOW" certified by the individual identified in Item 13.. Visit requests for subcontractors to activities other than IC activities will have "NEED-TO-KNOW" certified by the prime contractor. Requests for all visits to IC activities shall have "NED-TO-KNOW" certified by the NSWCDD Senior Intelligence Officer (SIO). All requests shall contain the information required by Chapter 6, NISPOM. The time limit on all certifications shall not exceed the contract expiration date. Certifications to IC activities shall be on a case-by-case basis.

All classified visit requests for the Dahlgren Division, Naval Surface Warfare Center should be forwarded to the Visitor Control Office no later than five (5) working days prior to intended visit.

Any material produced under the terms of this contract will be classified directly from the source document(s) from which it was obtained. It will be marked with the most restrictive downgrading/declassification statement contained in such documents.

CONTINUATION SHEET - DD 254

INTELLIGENCE INFORMATION

Intelligence information required in connection with performance shall be acquired under the direction of the Dahlgren Division, Naval Surface Warfare Center (NSWCDD) Scientific and Technical Intelligence Office (STILO), Code T53. Foreign intelligence will be provided in accordance with DOD Directive, DOD-0000-151C-95, DODIPP Production Procedures; OPNAV Instructions 3880.6 and 3811.1C and NSWCDD Instructions 3880.6A and 3811.1C.

The following conditions of release apply to Foreign Intelligence information.

a. The material does not become the property of the contractor and may be withdrawn at any time. Upon expiration of the contract, all foreign intelligence released and any material using data from such intelligence shall be returned to the NSWCDD Senior Intelligence Officer (SIO) for final disposition. Only with the prior authorization of the Office of Naval Intelligence (ONI-52) via the NSWCDD SIO may the contractor retain such material.

b. The contractor shall not release the foreign intelligence material to any activity or person of the contractors organization not directly engaged in providing services under the contract or to another contractor (including subcontractors), government agency, private individual, or organization without prior approval of the NSWCDD SIO, or ONI-52 via the NSWCDD SIO.

c. Intelligence material shall not be released to foreign nationals or immigrant aliens who may be employed by the contractor, regardless of the level of their security clearance or access authorization, without the prior approval of ONI-52 via the NSWCDD SIO.

d. Intelligence material shall not be reproduced without prior approval of the NSWCDD SIO, or ONI-52 via the NSWCDD SIO. All intelligence material shall bear a prohibition against reproduction while in the custody of the contractor.

CONTINUATION SHEET - DD FORM 254

e. The contractor shall maintain records which contain the names of all individuals granted access to foreign intelligence material in the contractor's custody. These records shall be furnished to the NSWCDD Contracting Officer or the NSWCDD SIO on demand. The contractor shall ensure all individuals granted access to foreign intelligence information are aware of and abide by the controls set forth above.

Foreign intelligence is defined in SECNAVINST 5510.36 as the product from the collection, evaluation, analysis, integration, and interpretation of intelligence information about a foreign power and which is significant to the national security, foreign relations, or economic interests of the U.S. and which is provided by a Government agency that is assigned an intelligence mission.

Ddl-J20 ATTACHMENT J.5 - VALUE ENGINEERING GUIDE

Navy Value Engineering Guide for Contractors

1. Introduction.

The Navy has revitalized its Value Engineering (VE) program based on direction from the highest levels within the Department. This renewed VE effort is evident in the annual VE savings goals and training requirements already promulgated throughout the Navy Contracting System. To monitor and enhance the effectiveness of this initiative, the achievement of VE objectives has been incorporated, where appropriate, into Navy personnel performance appraisals. The policy of realizing maximum VE application in Navy contracts is being implemented and carefully reviewed throughout all levels of the Department of the Navy. However, to ensure this program's success, the active support, cooperation, and participation of the contractor community is required. We strongly invite your interest and involvement in the VE program, and believe that the mutual benefits realized thereby will be readily apparent in the following overview of VE methodology and procedures.

2. Definitions, Policy and Procedures.

a. VE is a process of systematically analyzing functional requirements to achieve the essential functions in the most cost effective manner consistent with requisite performance, reliability/maintainability, and safety standards. It shares the same basic objectives and philosophy as other value improvement terms such as Value Analysis, Value Control, Value Management, etc. As a management discipline, VE has been successfully applied across the entire spectrum of the acquisition and support process. Its application is not and should not be limited by the term "engineering" to hardware design and production. VE is a fundamental approach which challenges even basic premises (including the need for the product's existence) in light of viable substitutes. Because of this perspective, VE may be applied to systems, equipment, facilities, procedures, methods, software and supplies. VE's application in these various areas has resulted in more suitable products, cost savings and increased profits to the contractors.

b. Contractors participate in the Navy VE program by two (2) means:

(1) Voluntarily suggest methods for performing more economically and share in any resulting savings. Known as the "incentive" approach.

(2) Comply with contract clauses which require a specific program be established to identify and submit to the Government methods for performing more economically. This requirement is incorporated as a separate priced line item of the contract and must meet minimum requirements of MIL-STD-1771. Known as the "Program Requirement" or "Mandatory" approach.

c. Basic policies for the VE program are set forth in FAR 48.102. Key features include:

(1) Agencies shall provide contractors a substantial financial incentive to develop and submit VECP's.

(2) Agencies shall provide contractors objective and expeditious processing of VECP's.

(3) Agencies shall encourage subcontractors to submit VECP's by requiring the prime to incorporate VE clauses in appropriate subcontracts.

(4) VE incentive payments do not constitute profit or fee within the limitation imposed by 10 U.S.C. 2036(d) and 41 U.S.C. 254(b).

d. VECP's can significantly increase profit. Contractors may share up to 55% of net savings, 50% of royalties and 20% of annual collateral savings when their cost reduction idea are adopted.

e. VE program output can be considerably improved through the formal training of the personnel involved. Such training is available on-site from private VE consultants and varies from straight classroom instruction to actual "hands-on" in-house VE projects guided by the instructor. This type of training may be tailored to the company's needs. The Government has two VE courses available. The "Contractual Aspects of VE" (CAVE), taught by the United States Air Force Institute of Technology School of Systems and Logistics at Wright Patterson Air Force Base; and the "Principles and Applications of VE" (PAVE), taught by the Army Management Engineering Training Activity at Rock Island. Both the CAVE and PAVE courses are open to Government contractor personnel on a space available basis and attendance is encouraged.

3. VE Methodology.

It is unnecessary for contractors to "reinvent the wheel" by making large investments of time/energy/money to develop formal VE analysis techniques. A formal methodology consisting of seven (7) distinct elements has already been developed, tested and proven in extended use over the years. This methodology (as shown in the DOD Manufacturing Management Handbook for Program Managers) may be applied from the component level up to and including entire systems. In specific cases, some elements may be considered "givens" and rigidly following the elements in sequence may not be necessary. These seven (7) elements are :

(1) VE Project Selection - The choice of system, service, hardware, component, requirement, etc., for VE application.

(2) Determination of Function - Analysis and definition of the function of the selected VE project to answer the question. "What does it do?" The function itself may be questioned (i.e., is it necessary?).

(3) Information Gathering - Collection and assembly of all necessary information concerning the VE item selected. Allows the VE personnel to become intimately familiar with the item while answering the questions, "What does it cost?" and "What is this function worth?"

(4) Development of Alternatives - Perhaps the most important element of the seven. Where an alternative is being sought, the use of free imagination, tempered with experience, will develop the best ideas. In initial "brainstorming" sessions, all ideas, even the wildest, should be duly recorded and considered. Don't constrain yourself to a conservative approach at this time. This element will provide an answer to the question, "What else can perform this function?"

(5) Analysis of Alternatives - Through this analysis, it is possible to "weed out" those ideas which appear technically or financially unfeasible. This analysis permits the selection of an alternative(s) for further feasibility testing based on the resulting cost estimates. This element answers the question, "What is the cost of the alternative(s)?"

(6) Feasibility Testing and Function Verification - Determines that the selected alternative(s) can perform the required function and are technically feasible. A variable alternative must provide the essential functional performance and be capable of being implemented. This element provides answers to the questions, "Are the alternatives technically feasible?" and "Does the alternative provide the essential function?"

(7) Preparation and Submission of Proposals - The final section, documentation and formal VECP preparation of the alternative. The VECP must be prepared and submitted in accordance with the requirements of the contract.

Additional detailed guidance in utilizing formal VE methodology may be found in DOD Handbook 5010.8-H "Value Engineering" as well as in courses called out in paragraph 2e above.

4. Sharing Mechanisms.

VE shall be implemented in Navy contracts by clauses identifying either the "incentive" or "mandatory" methods discussed in paragraph 2b above. The following table summarizes possible sharing arrangements under the different methods and by type of contract.

GOVERNMENT/CONTRACTOR SHARES OF NET ACQUISITION SAVINGS (figures in percent)

Sharing Agreement

Incentive
(Voluntary)

Program Requirement
(Mandatory)

Contract Type	Instant contract rate	Concurrent and future rate	Instant contract rate	Concurrent and future rate
Fixed-price (other than incentive)	50/50	50/50	75/25	75/25
Incentive (fixed-price or cost)	*	50/50	*	75/25
Cost-reimbursement (other than incentive)	75/25	75/25	85/15	85/15

*Same sharing arrangements as the contract's profit or fee adjustment formula.

**Includes cost-plus-award-fee contracts.

A contractor may be entitled to share in VE savings in two (2) different ways. The first results from savings on the acquisition of the product. Acquisition savings may accrue on your current contract, on other concurrent contracts where the VECP savings applies and on future contracts which incorporate the VECP. The other type of savings is collateral savings. Collateral savings are those in any other area such as logistics support, operations or other ownership savings which accrue to the Government as a result of accepting a VECP. The contractor is entitled to share in both acquisition savings and collateral savings. The extent of the sharing and types of savings shared are to be negotiated on a case-by-case basis depending on the nature of the VECP and subject to the sharing limits of the above table.
